Low Supply Co. Warehouse—Boston or Providence

**We offer to the public generally and also to
the plumber, steam-fitter, builder, painter
and contractor an unusual opportunity to
purchase plumbing, heating and paint
supplies of guaranteed quality
at lowest possible prices**

Some 6 years ago the organizers of the Low Supply Company, recognized the urgent need of the public for an institution that could supply them promptly and economically with Plumbing and Heating supplies. With the thought of serving the public in this capacity, the Low Supply Company was organized.

A retail display and sales room was opened where all Plumbing and Heating needs, large and small, were offered at prices so low that the public gasped in astonishment, competitive houses predicted an early collapse of the new enterprise.

It was thought by many old line houses that no business of this character could long exist on the small profit margin of the Low Supply Company.

Six years of experience has proved, however, that the public appreciation for quality and low prices bring a volume of business which enabled the Low Supply Company to continue in business, and grow rapidly on its own resources. Volume business, and fast turnover are the results!

In opening its enlarged store in its own building in Boston, in fitting up and opening to the public its beautiful display and sales rooms in Providence, establishing its own big warehouses, the Low Supply Company, has proved the soundness of the basic principles upon which the business is founded, namely, lowest prices, small profit margin, courtesy, fair and prompt service to customers, and volume business with quick turnover.

With the wonderful increase in sales shown by the two big stores in Boston and Providence, and further by the extension of the business by mail to all parts of New England, the Low Supply Company has developed a greatly augmented purchasing power which enables it to buy to still greater advantage, and to pass on the saving thus effected to the retail customers who visit the store, and to thousands of other Home Owners, Plumbers, Builders and Contractors who send their orders through the mail.

OUR GUARANTEE

We guarantee you full satisfaction in all dealings with us. Every article large or small, illustrated and described in this catalogue is to the best of our knowledge fairly represented. It is our sincere purpose to meet your highest expectations in value, service and satisfaction. If for any reason you are dissatisfied with the Plumbing, Heating, Paint Supplies or any other merchandise purchased from us, write or call upon us at once, and we will arrange for the return of the merchandise, and the refunding of the full amount paid, including transportation charges.

Remember your satisfaction is our one aim.

LOW SUPPLY CO.

BOSTON AND PROVIDENCE

Our Terms

We have but one price on all our merchandise, and one set of terms, namely cash with order.

The extreme low price at which our goods are sold prohibits the extension of credit to anyone.

Our purpose is to serve you with reliable goods at the lowest possible price, and this can only be done on a cash with order or C. O. D. basis.

In case you desire to order C. O. D. send 25% of the amount of purchase with your order, the balance to be paid when the goods are delivered to you.

Low Supply Company,
145 Washington Street, North,
Boston, Massachusetts.

Gentlemen:—

May we express our appreciation for the very satisfactory account maintained with us since your incorporation?

We are also pleased to say that we have a high regard for the three principal stockholders of your organization, and have knowledge of their being men of financial means, both in and out of this business.

We believe, accordingly, that all customers dealing with the Low Supply Company will be treated in a satisfactory manner.

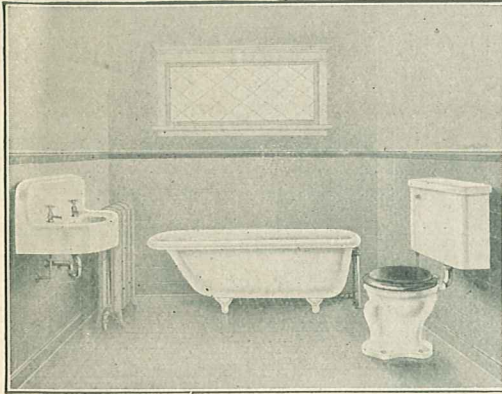

Assuring you of our willingness to serve you, we are

Very truly yours,

C. H. THORNE,
Vice-President.

Sink and Tray Combination

S. T. 450

Latest Design

For the small home or apartment, where the economy of space was necessary. This sink answers two (2) purposes. It gives you a regular apron sink with a drain board and by reversing the drain board it gives you an apron laundry tray in your kitchen, enabling you to laundry your special fine linens.

Material

This sink is strictly of the highest grade, being made of the very best gray iron and has a heavy coating of white porcelain enamel on the inside and top of rim, which absolutely guarantees the enamel from chipping, crazing or peeling.

Fittings

The fittings are of solid brass heavily nickel-plated, consisting of the following: On the sink, there is furnished a swing spout combination sink fixture with china soap dish. It is a quick compression faucet with china indexed handles. No traps are included in price.

Support

Sink is supported by concealed wall hangers and has two (2) Cast Iron adjustable white painted legs, enabling one to set the sink at any height desired.
Price, less fittings.....\$46.80

A Perfect Sanitary Chemical Toilet

S. T. 1200

The Hygeo Commode is substantially constructed. The complete system is composed of an outer can attractively finished in light enamel, and equipped with a good seat and cover, having nickel fittings. The inner pail, made from 26-gauge galvanized steel, has a heavy reinforced wire top pail and handle. The bottom of the inner pail is double sealed to the side wall and guaranteed leak-proof, provided the regular Hygeo-Commode Disinfectant is used. Ventilating equipment consisting of six, twelve-inch lengths of three-inch light enamel pipe, two, three-inch light enamel elbows, one wall collar, one toilet paper holder, one roll of toilet paper and a one-half gallon can of liquid chemical disinfectant are included.

The Hygeo Commode can be installed in an ordinary clothes closet or out-of-the-way place.

Ventilating pipe may be connected with a chimney outlet, through a window or direct through a side wall. Nothing complicated about the installation. It can be erected in a few moments by anyone.

The inner pail has a capacity of eight gallons.

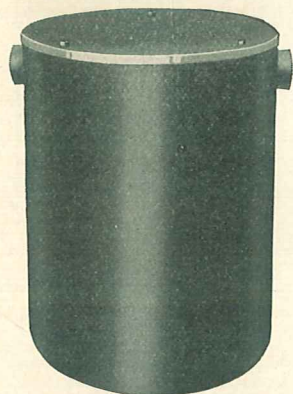

The Hygeo Commode is an inexpensive arrangement. Ideal for small country homes, hunting and fishing lodges.

200 Gallon Capacity \$25

Low Septic Sewage Disposal Tank

Safe — Effectual — Inexpensive. Sanitary — Odorless — Protects Your Water Supply. Used Wherever Running Water is Available. Anybody Can Install It.

The Low Septic Tank is adapted to all uses, city or rural, where running water is available. Ideal for homes, hotels, summer resorts, etc. By the natural process of bacterial action it provides a safe, yet effectual and inexpensive method of sewage disposal, as well as a positive protection of your water supply. Low Septic Tanks are easy to install.

Low Septic Tanks are made from the purest Copper-bearing iron obtainable. Ten to fourteen gauge metal is used, the gauge of the metal being increased as the capacity of the tank increases. All seams are carefully welded by experts, and every tank is given a thorough inspection before leaving the factory.

All surfaces are covered with several coats of tested Mineral Oil Preservative which prevent corrosion.

Order No.	Size of Tank	Total Capacity Gals.	Weight About	Capacity—Home Use—No. of Persons	Price
Sep 1200	38"x48"	200 gals.	260	4 to 7	\$25.00

Florence One-Burner Water Heater

Width, including oil tank... 19 in.
Depth... 15 in.
Height... 41 in.
Net Weight... 30 lbs.
Crated Weight... 48 lbs.
Floor Space

required 19½ x 16½ in.

Efficient, economical in operation, and with a low initial cost.

The over-sized, high-powered 15" Florence burner focuses its intense heat close-up to 20 feet of ¾ inch (outside dimension) copper tubing.

O. H. 609

The Water Is Pre-heated

Florence Water Heaters are equipped with Pre-heating Water Chambers that thoroughly warm or pre-heat the water before it enters the coils. In using this pre-heating method Florence works on the most advanced principle of heating water.

A Florence heats water faster than most oil-burning water heaters on the market, and under normal domestic conditions heats a 30-gallon tank at a cost of 4 to 4½ cents.

Standard Galvanized Range Boilers

R. B. 600

Our boilers are guaranteed to stand working pressure of 150 pounds and are brazed and riveted. Our boilers are first shaped and then galvanized inside and out. This covers all parts of boiler with coating of zinc and protects them against rust. All boilers are tapped 1 inch for iron pipe thread. Boilers are intended to store hot water under pressure and can be connected to gas, kerosene burner or indirect type of heaters. Water circulates from tank through heater and back to the tank, giving a constant supply of hot water.

Wick Burner Copper Coil Heater

O. H. 608

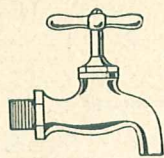

Here is a heater that brings to suburban and country homes (where gas is not available) all the luxuries of hot water for domestic use. It operates in the same manner as heaters burning city gas, and will give satisfactory service in every sense.

Perfect combustion increases a substantial saving of fuel. It consumes 10 gallons of air to one gallon of kerosene. On this mixture it burns 19 1/2 hours on a full fire and 30 hours on a low fire. The coil assembly of this heater is a great feature, consisting of four 3/8-inch copper coils, each 8 feet long, connected to a brass manifold with four union connections. Their compactness brings the entire surface of these coils in close contact with the flame. This feature combined with the small diameter of the coils permits quick heating and real economy of fuel. This heater connected to range boiler can be kept going continually and provides a constant supply of hot water at all times. Shipping weight, 50 pounds.

O. H. 608—Heater as described\$18.35

Steam and Water Pipe and Fittings

P. C. 2500

STANDARD STEAM, GAS AND WATER PIPE

Our black and galvanized standard pipe is the best grade obtainable, full weight, evenly rolled stock, carefully welded and free from imperfections.

Black pipe and fittings are used for steam, gas, oil and hot water heating systems, irrigation, air pipe lines, etc.

Galvanized pipe and fittings are used for supply and waste pipes on plumbing systems, drinking water pipe lines, vents, etc.

Prices given below are for the pipe furnished in random mill lengths, about 20 feet long, threaded on both ends. One coupling furnished with each length of pipe.

If pipe is wanted cut to specified lengths and to be threaded we do not furnish coupling and we charge for each thread as per price list below. When you order pipe cut to specified lengths be sure to always state if pipe is desired threaded or not threaded.

Prices subject to market changes.

Inside Diameter	Shpg. Wt., per Foot, Pounds	Black per Foot	Galvanized, per Foot	Extra for Threading

Pipe Nipples

When ordering state if close and short or long nipple is wanted and whether black or galvanized; also state pipe size. We do not furnish nipples to exact lengths, as our stock is in assorted sizes, but if you will specify lengths wanted we will furnish nipples as close as possible to lengths you specify. Close nipples are about 1 1/2 inches long. Short nipples are 2 1/2 inches long. Nipples longer than 2 1/2 inches are classed as long nipples. Nipples longer than 6 inches will be charged for as pipe cut to length and threaded both ends.

Perfectly Satisfactory!

Barrington, R. I., April 12, 1928.

Low Supply Co.
Gentlemen:—

Have just received and checked up on my last order and find it perfectly satisfactory. Thanking you for your promptness in this and past orders, and also for unfailing courtesy in our dealing for past five years, I am,

Yours very truly,
JAMES O. TAYLOR,
Barrington, R. I.

Saved Over \$300.00

Low Supply Co.,
145 Washington St., No.,
Boston, Mass.

Gentlemen:—

The material I received from you met with all my expectations, and I am sure I made a saving of over \$300.00. The service and courtesy you extended me are very much appreciated and I shall gladly recommend you to any of my friends who wish to save in buying plumbing and heating supplies.

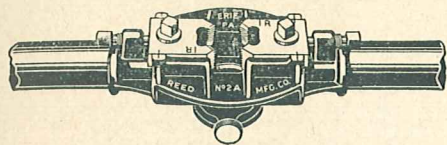

Yours truly,
CARMINO SARNO,
50 Vernon St., Somerville, Mass.

Now

a big-capacity Water System at this new low price

Special
LOW Price
\$70

HERE is the latest Fairbanks-Morse accomplishment—a new big-capacity electric water system. Offered at the lowest price in home water plant history—yet genuine Fairbanks-Morse quality throughout.

Don't fail to see this most modern of all home electric water systems—the result of years of experimenting and testing to develop the ideal water system for the home. See the trim design—the total enclosure—the beautiful finish of *delft blue* automobile lacquer. Never before has such matchless quality and workmanship been offered in a plant so low in cost. Due to big volume production, modern manufacturing methods, and world-wide distribution, this finely built water system is offered at a low price that brings faucet service within reach of everyone!

FAIRBANKS-MORSE Home Water Systems

“Ideal” Drainage Pump

In addition to basement drainage, the Ideal can be used efficiently for draining cesspools, furnace pits, elevator shaft pits, etc.; also for water supply systems at summer or any country home where electricity is available.

SPECIFICATIONS (Height Over All—3½ Feet)

MOTOR—Full ¼ H. P., A. C., 60 cycle, 110 volt. Motors of other specifications can be supplied at slight additional cost.

SWITCH—Double pole, entirely enclosed in cast iron housing, designed and built especial for automatic float operation.

BEARINGS—Annular ball type, submerged in oil, carrying entire weight of rotor, pump shaft and impeller; and eliminating all unnecessary friction.

INLET AND DISCHARGE—Inlet is bell trap principle. Discharge fitted with 1¼-inch elbow so that outlet pipe or hose can be placed at any angle without special fittings.

CAPACITY AND LIFT—The Ideal will pump 3000 to 3500 gallons of water, or any other liquids, per hour. Lift, 20 feet.

ELECTRIC CONNECTION—Flexible 10-foot cord with plug to fit any ordinary electric light socket.

SUPPORTS—Three (Tripod type) legs, fitted to adjustable collar on pump shaft housing; or 10-inch flat metal base. No extra fittings necessary to suspend pump in sump or pit. Simply raise leg support bracket on pump shaft housing and spread legs as needed.

EXTRAS—Prices on extra length pumps gladly furnished upon request. Shipped in single crates, securely packed, ready for immediate use.

IMPORTANT—An enclosed flexible coupling (exclusive Ideal design) forms the connection between motor and pump impeller shaft, constructed so that motor when starting makes a half to three-quarter turn and then gradually starts pump shaft and impeller rotating. This cuts out the “Dead Starting Load” on motor and means practically complete elimination of burning out of motor, or blowing fuses.

Shipping weight approx. 80 lbs.

Waterproof Spar Varnish

A good inside and outside varnish. It has a tough, durable gloss that will withstand hard wear. Water will not affect its color.

Per gallon \$2.95
Per quart \$.90

HOW TO FIGURE QUANTITY OF PAINT NEEDED

To ascertain quantity of paint required to paint a building two coats.

Add the number of feet on front, rear and both sides and multiply by the average height, this divided by 250—as one gallon of paint covers 250 square feet (two coats) will give the amount in gallons.

Thus a house 30x45x20, will require twelve gallons; see example below:

EXAMPLE:

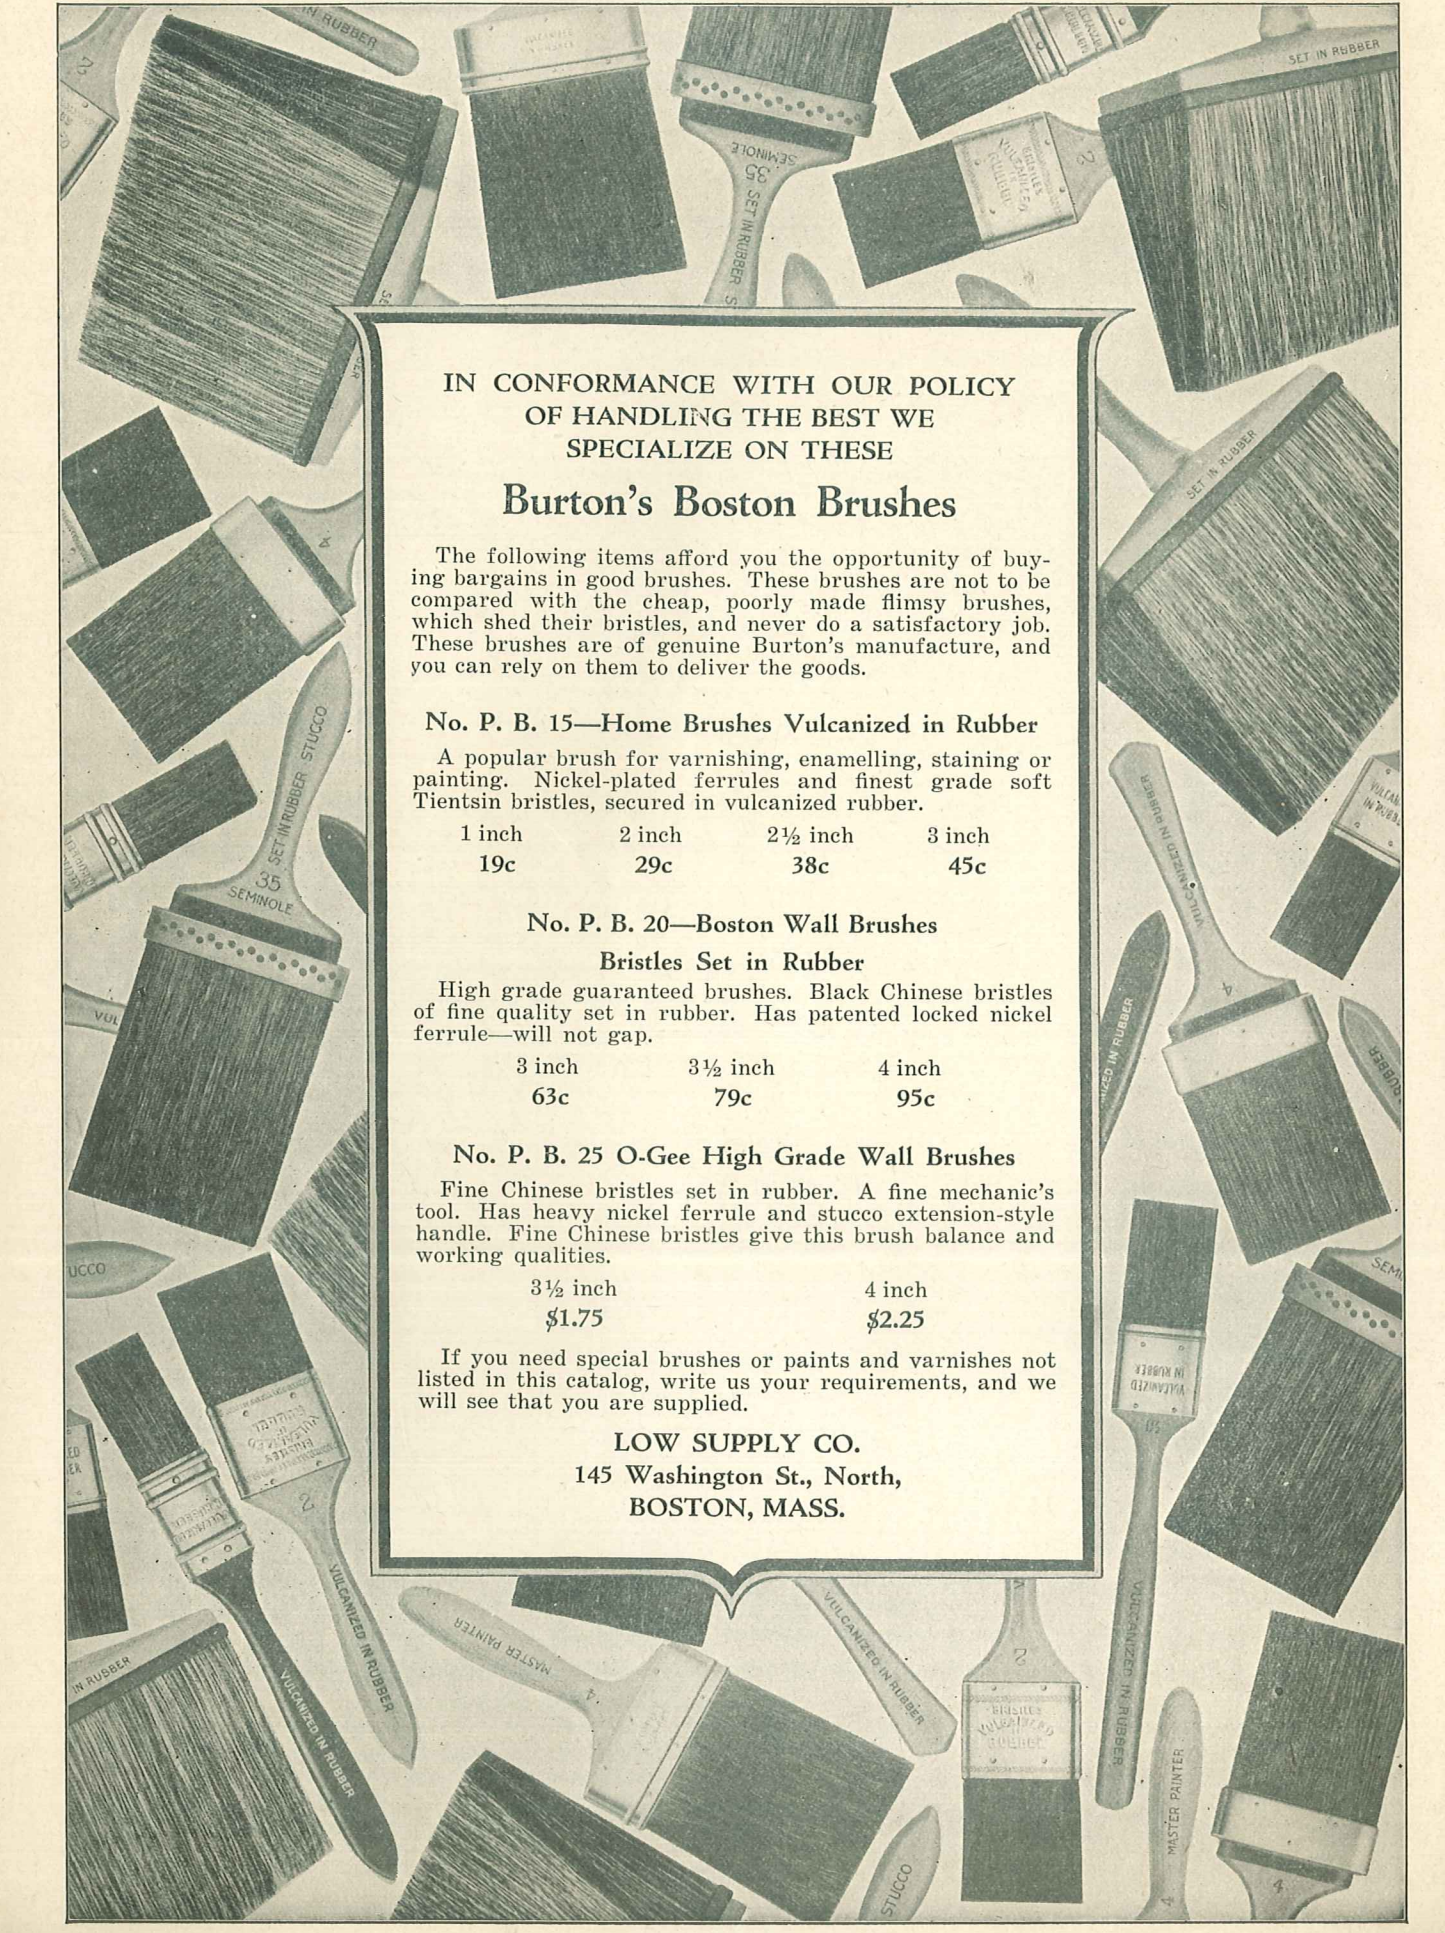

Front	30 feet
Side	45 feet
Rear	30 feet
Side	45 feet

150

Multiply by height 20

250) 3000 (12 gal.
(for two coats)

No rule can be given for accurately determining the exact amount required, as the condition of the surface to be painted might cause some variation, but the above is sufficiently correct for all practical purposes.

For a package of 8 ounces or less to any zone allow:

- 1½c for 2 ounces or less
- 3c for 3 or 4 ounces
- 4½c for 5 or 6 ounces
- 6c for 7 or 8 ounces

If more than 8 ounces, to and including 16 ounces, allow the one-pound rate.

POSTAGE WEIGHT LIMIT

Packages not exceeding 70 pounds in weight may be mailed to any post office in Zones 1, 2 and 3. Packages which do not exceed 50 pounds in weight may be mailed to all zones.

PARCEL POST CHARGES ARE LOW

Parcel post is an inexpensive and convenient way of having most of your orders shipped. The rates are low. All you need to do is send us enough money to pay for the stamps on your package. *If you send more than enough, even though it is only a penny, we will refund the excess amount.* Postal deliveries are prompt and frequent. Your regular mail carrier will deliver your orders to you.

You Can Easily Figure How Much Postage to Send

1. In each catalogue description we state the shipping weight in pounds and ounces.
2. Write the shipping weights for each article on your order blank in the columns provided.
3. Add up the weight of all the articles on your order to find the total shipping weight.
4. Find the total shipping weight of your order in the left hand column of the parcel post rate chart. The postage charges shown to the right of this weight, under the zone in which you live, is the amount you should include with your order to pay the parcel post charges.

Transportation Charges

All transportation charges are to be paid by the customer.

When goods are to be shipped by parcel post be sure to include *additional* money to pay for postage.

When goods are to be shipped by freight or express and there is no freight or express agent at your shipping point, you must send additional money to prepay the freight or express charges. If there is an agent you can pay the charges when shipment reaches you. It is only necessary to prepay freight or express charges when there is no agent at your station.

Freight is the Cheapest

Parcel post and express rates are low, but the cheapest way of shipping is by freight.

If you order goods sent by freight or express be sure to give your shipping point if it is different from your postoffice.

As to Our Responsibility

You need have no doubt in your mind as to our financial responsibility. In case you desire to look us up, we gladly refer you to either of the two banks, whose letters appear in this catalog or to Dunn or Bradstreet's report. More important still we gladly refer you to any of our many thousands of satisfied customers throughout New England, who have enjoyed the price economy, prompt service and complete satisfaction of buying from the Low Supply Company.

Saved \$150.00 — Read This

48 Van Burn St., Lakewood, R. I.

Low Supply Co.,
132 Fountain St.,
Providence, R. I.

Dear Sirs:

Having done business with you for the past few years, and always found you fair, reasonable and courteous I feel as though I ought to commend you at this time. The last steam job I bought of you I saved about \$150.00, so here's for good luck to you in the future.

Yours truly,
A. E. CHERMS,
Builder.

Am Telling My Friends

Low Supply Co.,
Providence, R. I.
Gentlemen:

I saved \$25.00 on the Bath Room I bought from you and am very satisfied and am telling my friends of your good treatment.

JOHN A. BROWN,
290 Prospect Street

UNION TRUST COMPANY

MEMBER OF THE
FEDERAL RESERVE SYSTEM

Providence, R. I.

Low Supply Company,
132 Fountain Street,
Providence, R. I.

Gentlemen:—

On this anniversary of the date of the opening of your account with us, we are writing to express our appreciation of the business with which you are favoring us and of the pleasure we are deriving through our relations.

Your financial report covering last year's operations reached us a few days ago, and the results indicated therein must be very gratifying to you. It is evident from the volume of sales you made that your patrons find dealing with you as satisfactory and pleasant as we do.

We hope the future has in store for you still greater success, and we extend our most cordial wishes for your continued progress.

Very truly yours,
WALTER T. FARRELL,
President

LOW SUPPLY COMPANY

Read These Letters From Satisfied Customers

Low Supply Co.,

Dear Sirs:—Would like to state that I have bought several hundred dollars worth of merchandise of you and have always found your store a real place to trade in and have saved a good many dollars. The goods have been very satisfactory. I am recommending all my friends to you. Wishing you luck in your new and improved store, I remain yours sincerely.

I hereby authorize you to print this letter in your new catalogue.
CHARLES PARKINSON,
Seekonk, Mass.

Low Supply Co.,

145 Washington St., N.,
Boston, Mass.

Gentlemen:

The two combination sink and wash trays that I purchased from you I had installed. My wife was certainly pleased with these goods and made a considerable saving. As I have been a builder for the last twenty years I will certainly buy plumbing supplies direct hereafter.

I herewith give you the privilege of using this letter in connection with your catalog.

Yours truly,
JOSEPH LEMAY,
April 25, 1928. 35 Bevel St., Lawrence. Tel. 9043.

Low Supply Co.,

145 Washington St., N.,
Boston, Mass.

Dear Sirs:

We have received your goods and we have installed same and have found that we saved about \$100.00. This experience has taught us to buy direct. We are glad to recommend any of our friends to buy material direct from you.

I herewith give you the privilege of using this letter in connection with your catalog.

Yours truly,
JOHN S. MacDONALD,
25 Woodbury Ave., Lynn.

Low Supply Co.,

145 North Washington St.,
Boston, Mass.

Gentlemen:

The heating plant that you advertised for \$159.50 I have personally installed in my cottage and found that the lay-out that you gave me with the pipes, fittings and radiators were just the amount that I needed.

This was my first experience in attempting to install a heating system and saved about \$125.00 by doing the work myself. If ever I need any more material for either heating or plumbing I will be glad to purchase same from you.

I herewith give you the privilege of using this letter in your catalogue.

Very truly yours,
ERNEST A. KNIGHT,
Boston, Mass.

Low Supply Co.,

145 Washington St., N.,
Boston, Mass.

Gentlemen:

The goods that I have bought from you on my last four jobs have been absolutely as represented and the fact that I am still purchasing goods from you proves my satisfaction with the same.

In my experience as a plumber for 35 years I can say that I have no fault to find either with your service or your material.

I herewith give you this recommendation to use in your catalogue.

Very truly yours,
THOMAS P. McCARTY,
No. 12 Harvard Ave., West Medford.

Low Supply Company,

145 North Washington St.,
Boston, Mass.

Gentlemen:

The bathroom outfit that I purchased from you I had installed at my house. The goods were as represented and I saved \$62.00 by purchasing this outfit and had it installed myself.

I hereby authorize you to use this letter in connection with your catalog.

Yours truly,
THOS. H. BYRNES,
10 Broadway, Malden, Mass.

West Barrington, Rhode Island, April 23, 1928.

Low Supply Company,
Providence, R. I.

Dear Sirs:

Your efficiency and courteous treatment at all times and through many years of my contact with your firm have prompted me voluntarily to inform you of my pleasure and thanks for this same consideration.

The quality of your merchandise is extremely dependable and satisfying in all cases and therefore I take great pleasure in recommending your goods.

Should you desire to use this letter, you have my hearty consent.

Very truly yours,
EDWARD M. YOUNG.

Low Supply Co.,

145 North Washington St.,
Boston, Mass.

Gentlemen:

The hot water heating plant that I bought from you I installed according to the plan you gave me. I found the results O. K.

I herewith give you the privilege of using this letter in your catalog and wish to add that I saved \$114.00 by using this method.

Yours truly,
JOHN HALKER,
14 Pearl St., Medford, Mass. Tel. Mystic 2894.

Boston, Mass., Providence, R. I.
